1999 Analytical Review DWCCA-5715-PJL

Dear Ms. Eldred:

The Public Service Commission (Commission) is in the process of completing an analytical review of your utility's 1999 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1. Your utility has not been calculating depreciation expense in accordance with the authorized benchmark composite rate of 1.77 percent which was effective January 1, 1998. Although 1.77 percent is reported on page F-7, line 22, in the 1999 annual report, the \$38,332 depreciation expense is equal to a composite rate of 1.64 percent on average depreciable plant investment of \$2,338,260. The 1.64 percent composite rate was also used in 1998. The under accruals have totaled \$6,108 during 1998 and 1999. We highly recommend that the authorized composite rate of 1.77 percent be used to more properly reflect exhaustion of service life of plant assets so that retirement losses will not occur in the future. If your utility does not adopt the authorized benchmark composite depreciation rate, the utility's file at the Commission will be updated to indicate this fact and this would be a consideration in future rate cases if amortization of retirement losses was requested by your utility.

2. During our review, we noted that while the utility reports in the footnotes of the Water Mains schedule on page W-15 that the main additions were financed by the utility, there is \$19,680 reported for contributions in aid of construction for water mains in column (b) of Account 271 on page F-17. Please explain.

3. Please provide more detail regarding the \$263,547 reported in Account 233 on page F-18 described as "Due To Other Funds."

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. If it is convenient for you to respond by e-mail, please do so. My e-mail address is leegep@psc.state.wi.us. If we have no questions regarding your response, you can consider the review closed.
